Slam For Fun!

Hello there:

The idea here is to utilize the slam attacks, and it's easy with [\[Crushing Ruin\]](#) stance.

And yet, this build is another hybrid light and heavy attack.

The main difference in this new weapon is that we are not focusing on slash damage, we go for Corrosive, and we are going to slam a lot! It's actually fun! Not meta, but who pick a hammer for other reason but fun?

Enjoy!
