# Telos Boltace 51k DPS | Corrosive/Viral + Critical

## Introduction:

Since Slash is low, I ran Corrosive instead of Viral, though switch to Viral if you have 100% Armor Strip. The [\[Gemini Cross\]](#) combo has some Slash forced Procs, so if you use Nourish or a Viral Primer you can take advantage of that too. The slide attack gimmick is best played with Naramon, as the combo builds up to 12x you will get orange crits all the time. If you don't have Naramon then for the combo duration you can use Dexterity Arcanes or exchange [\[Gladiator Might\]](#) with Drifiting Contact.
